

---

We, the undersigned homeowners of \_\_\_\_\_, request the installation of granite block curbing on our street. In accordance with current Town policy, if we desire curbing, we understand we will be assessed 100 percent of the cost over a five-year period. The average cost of granite block curbing is currently about \$20.00 per lineal foot of property frontage, which would be a total assessment of \$2,000.00 for a 100' wide lot, or \$1,000.00 for a 50' wide lot. We acknowledge that the cost may vary slightly due to the actual bid price received from the contractor. We agree to pay the portion of the costs of such curbing which are lawfully assessable to the adjoining homeowners. It is understood that there will be no assessment to the adjoining owners for granite block curbs that have been previously installed and approved by the Town.
